

What is the Army Virtual Housing Experience?

The Army virtual housing experience provides Soldiers and families world-class customer-focused housing information allowing them to make informed choices about off-post, privatized and Military housing options at their next duty stations.

The Army Housing Online User Services (AHOUS) website is the single point of entry for all your housing needs.

AHOUS is a web-based tool that enables Soldiers and families to see on-post housing options, what they can qualify for, their positions on wait lists, and information about installations that will assist them with relocation.

AHOUS is a free tool that doesn't require an account to access housing information.

All the information that is displayed on AHOUS has been vetted by every Garrison Housing Services Office Army-Wide.
